

TRUMBULL COUNTY BOARD OF DEVELOPMENTAL DISABILITIES

Policy

Section 3.3

ACCESSIBILITY

It is the policy of the Trumbull County Board of Developmental Disabilities to eliminate all barriers whether architectural, procedural or attitudinal that may interfere with the delivery of services, transportation or access to any Board facility, program, activity or job opportunity.

In all matters of access and opportunity, the Board adheres to and promotes a proactive stance that emphasizes an awareness and sensitivity to the needs and rights of people with disabilities. It encourages dialogue, welcomes diversity and supports efforts to raise public awareness.

In collaboration with the accessibility plan developed by leadership, each program and operational facility will represent best practice in meeting the diversity and accessibility expectations of individuals served and potential and current employees with disabilities.
